A Full-Stack Developer with a strong interest in application development; began a career in 2021 as a computer lab assistant and has continued to grow professionally, currently focusing on deepening expertise in Full-Stack Development and IT Support.

Work Experiences

Sirul Tour & Travel - Sedayu City, Kelapa Gading, Jakarta Timur <i>Full Stack Developer</i> - Designing and building an integrated full ERP system that connects three key modules: Hajj and Umrah package e-commerce, real-time inventory, and finance. - Integrating a webhook-based payment gateway to verify payments in real-time, which immediately triggers automatic inventory stock deduction and financial journal recording without manual intervention. - Handling complex transaction logic (purchases, returns, and cancellations) using database transactions and Eloquent events to prevent stock discrepancies and ensure 100% accuracy in financial reports. - Implementing containerization using Docker and deploying to a VPS server to ensure application stability and consistency between local and production environments. - Lead and execute the User Acceptance Testing (UAT) process directly with the client to validate system workflows, ensure all features align with business requirements, and implement improvements based on feedback prior to launch.	Dec 2025 - May 2026
Freelance <i>Freelance Fullstack Developer</i> - Built personal branding through social media and established local networks to acquire clients, ranging from university students to small and medium-sized businesses (SMEs) in the surrounding area. - Conducted client meetings to gather application requirements and negotiated project scope, features, and pricing. - Designed and developed applications end-to-end (100%) using technologies aligned with project needs - Performed manual testing to ensure application functionality and reliability before release. - Deployed applications to production and ensured systems ran smoothly with minimal bugs for client use	Aug 2023 - Jun 2024
UIN Mahmud Yunus Batusangkar - Batusangkar, Tanah Datar, Sumatera Barat <i>intern Full Stack Developer</i> - Designing and building official WordPress-based landing pages for the faculty and departments, focusing on an interface design that is informative, responsive, and optimized for publishing academic information. - Developed an E-Internship information system using CodeIgniter and MySQL, covering end-to-end internship lifecycle management—from the online registration module and digital attendance tracking to the final internship grade recapitulation. - Coordinate and conduct User Acceptance Testing (UAT) with administrative staff to validate system functionality, identify errors, and ensure the application is ready to streamline internship operations.	Feb 2023 - Jun 2023
IAIN Batusangkar - Batusangkar, Tanah Datar, Sumatera Barat <i>Asisten Labor Komputer</i> - Handle the maintenance, installation, and repair of hardware (PCs, laptops, printers) and software in office and faculty room environments to ensure smooth daily operations. - Perform periodic maintenance (preventive maintenance) on all laboratory computer units and routinely manage practical work data backups to safeguard data archives, reducing the risk of loss by up to 90%. - Handling troubleshooting for LAN/Wi-Fi networks, hardware, and learning applications with rapid response times, achieving an 85% issue resolution rate (SLA) for lecturers and students. - Periodically compile monthly maintenance reports and formulate operational efficiency recommendations to enhance the utilization and comfort of computer laboratory facilities.	Jan 2021 - Jan 2022

Education Level

UIN Mahmud Yunus Batusangkar - Batusangkar, Tanah Datar, Sumatera Barat <i>Diploma in Manajemen Informatika, 3.65/4.00</i> Pelatihan Kepemimpinan Mahasiswa Dasar (PKMD)	Aug 2020 - Jan 2024

Skills

Hard Skills

- **Programming Languages:** JavaScript, TypeScript, Java, PHP, Golang, Python, SQL
- **Frontend Development:** React, Next.js, Vue, Redux, Tailwind CSS, Bootstrap
- **Backend Development:** Express.js, Laravel, CodeIgniter, Gin-gonic, Odoo
- **Databases & Caching:** MongoDB, MySQL, PostgreSQL
- **Tools & Platforms:** Docker, Git, GitHub, GitLab, Postman, CI/CD, Visual Studio Code
- **Architecture & Concepts:** RESTful API, MVC Architecture, Clean Architecture, OOP
- **Other Skills:** Responsive Web Design, SEO, Apache, Nginx, Windows, Linux (Ubuntu)

Soft Skills

- **Logical & Problem-Solving Skills:** Capable of logical thinking to troubleshoot and resolve complex technical issues within systems and networks.
- **Teamwork:** Experienced in collaborating effectively with both technical colleagues and non-technical stakeholders (management, staff, and clients).
- **Adaptability:** Flexible and quick to learn and master new technologies as required by company projects.
- **High Attention to Detail:** Meticulous in writing clean code, implementing data validation systems, and maintaining database security.
- **Management & Documentation:** Organized in managing daily work priorities and diligent in creating technical guides or project documentation.

Projects
